May Meeting Recap
The following was covered at the May meeting.

- Future Chapter meetings
  - June 11th will feature a night out at the ballpark with the Salem Red Sox
  - Summer break will be July through August with our first meeting of the Chapter year scheduled for September 10th.
  - We are looking for recommendations for speakers, topics and meeting locations for next year
- Committee chairpersons and/or members are still needed for Chapter committees including:
  - Audit
  - Awards and Honors
  - Foundation Activities
  - Governmental Affairs
  - Membership
  - Newsletter
  - Professional Development
  - Programs
  - Public Relations
  - Regional Operating Committee
  - Strategic Planning:
  - Officer Nominations & Elections.

Interested parties were requested to contact Bob Calhoun.

- Regional Operating Committee meeting
  - Daniel Ashworth attended the March 23-24 ROC meeting.

- Delegate request.
  - A proxy is needed to support the House of Delegates meeting at Safety 2018 in San Antonio. Anyone attending the PDC, that's a professional ASSE member, can represent the Chapter. A commitment is needed by May 31, 2018

- Launch of ASSP activities and respective dates:
  - ASSP officially launched at Safety 2018 in June
  - Society will be offering branded letterhead, flyers, certificates of recognition, name badges and other items with new logo

- New website design:
  - The Society offered six designs to choose from in green, yellow and gray. The Executive Committee voted and chose the “Aeolus Green” design. This design will be launched soon.

- Plans:
  - Methods to provide benefit to the membership are being considered including publicizing job openings and other, conferences, meetings, networking opportunities, best practices. A committee needs to take ownership of this topic. Volunteers are needed as are items to share for publishing
  - The Chapter is looking for meeting and newsletter sponsors to help defray costs.

- Presentation
  - Chief Benjamin L. Cook and his staff provided an tour of the Roanoke-Blacksburg Regional Airport

The meeting was concluded with a description of plans for the May meeting.

Bob Calhoun, Chapter Secretary

May meeting attendees included: Daniel Ashworth, Carlton Davis, David McCrumb and Brandon Webb.

Star Valley Chapter Election Results
Results of the Star Valley electronic voting results are in:

- 30 votes for the candidates
- 2 abstained for a total of 32 votes.

Chapter Officers for 2018-19 are President: Daniel Ashworth; Vice President/President Elect: E. Stuart Bowman, MBA CSP; Secretary and Delegate to the Society House of Delegates (HOD): Bob” Calhoun, CSP; and Treasurer: Brandon S. Webb. Congratulations to all.
NIOSH Fatality Assessment And Control Evaluation (FACE) Program

NIOSH has a valuable website related to fatality assessment and evaluation. The website, NIOSHFACE, began in 1982. As a part of the program, participating states voluntarily notify NIOSH of traumatic occupational fatalities resulting from targeted causes of death that have included confined spaces, electrocutions, machine-related, falls from elevation, working youth, and logging. NIOSH FACE is currently targeting investigations of deaths associated with machinery, deaths of foreign born workers, energy production, and falls in construction.

Currently, seven State health or labor departments have cooperative agreements with NIOSH for conducting surveillance, targeted investigations, and prevention activities at the state level using the FACE model. In addition to the NIOSH targets, states conduct investigations of fatalities related to state-level targets. State FACE investigations have included fatalities related to renewable energy, logging, agriculture, transportation, commercial aviation and fishing, suicides and homicides, worker deaths involving toxicological issues, semi-truck and dump truck fatalities, public sector workers, incidents involving multiple workers, chemical-related fatalities, young workers under 25 years of age, older workers over 60 years of age, asthma-related deaths, temporary workers and volunteers, and tree trimmers. Categories that differ from the NIOSH FACE targeted causes of death may only be available on individual state websites.

The primary intent of this program is to provide interested users with access to the full text of hundreds of fatality investigation reports. This site also includes background on the FACE program—including the history of the program, a full description of the program, and contact information—as well as relevant links to other sites of interest.

Members are encouraged to check out this program. This month includes two crushing incidents and 30 foot fall that may assist in preventing such incidents.

FACE can be accessed using this link: https://www.cdc.gov/niosh/face/whatsnew.html

June is National Safety Month

Observed annually in June, National Safety Month focuses on reducing leading causes of injury and death at work, on the road and in our homes and communities. We provide downloadable resources highlighting a different safety topic for each week in June:

- Week 1: Emergency Preparedness
- Week 2: Wellness
- Week 3: Falls
- Week 4: Driving

ISO 45001 was published earlier this year and is now adopted as an American National Standard. ASSE was a leading voice in the development of this global standard and offers the OSH community several resources in addition to the standard itself:

- View a video on our ISO 45001 LearnEx course that provides background on the standard as well
- Learn about our ISO 45001 Certificate Program
- Read our five-step action plan for implementing the standard
- Purchase the standard
ASSE Family Scholarship Fund

It's estimated that 4,600 people die annually from a workplace fatality in the U.S. Globally, 6,300 people die every day because of occupational accidents or work-related diseases – more than 2.3 million deaths per year, according to the International Labour Organization.

The 38,439 members of the American Society of Safety Engineers (ASSE) have dedicated their lives to helping reduce injuries and save lives. Workers' Memorial Day, April 28, is a painful reminder of how much the safety community, business leaders and workers need to work together to improve the safety of every workplace in America and across the globe.

The ASSE Foundation's Family Scholarship Fund supports families who have lost a loved one in a workplace incident. Join ASSE in fulfilling the wishes of these families to see their child or spouse achieve their educational goals by donating today to the Family Scholarship Fund.

If you know of any family who may benefit from this scholarship, please ask them to visit our website for more information.

Donate to the Family Scholarship Fund

Please provide Newsletter comments, news, recommendations and submissions to Calhoun@mpinet.net
ASSE Region VI Professional Development Conference
September 19 - 21, 2018
Myrtle Beach, SC

Liaison Roles

We will meet on Tuesday September 18th at 5:15PM in the hotel near the registration table of the PDC for a 30-minute Liaison Orientation to go over the schedules and to address any other concerns. We will also go over the database and evaluation entry, so it is very important that all liaisons attend this meeting.

*Liaisons who do not fulfill these duties may not be permitted to serve as liaisons again*

Primary Liaison (Session Moderator):

Prior to Session...
1. Confirm the arrival of your speaker,
2. Welcome them to the conference,
3. Ensure their registration,
4. Confirm the room(s) and times they will be speaking,
5. Confirm bio with speaker,
6. 30 minutes prior to session, pick up Session Folder*

At the Session...
1. Call session to order,
2. Introduce the session and speaker using the Session Moderator Script,
3. At the end of the session(s), thank the speaker and present the speaker gift.

After the Session...
1. Enter the information from the session evaluations into the database

* The Session Folder will contain a list of sessions and Liaison assignments, the Session Moderator Script, speaker biography, and speaker gift.

Assistant Liaison:

Prior to Session...
1. Meet up with Primary Liaison to go over the details of the session,
2. Ensure that the speaker gift for the session you are assigned is in the packet (see Primary Liaison),
3. Ensure that Audio-Visual (A/V) requirements are those scheduled to be provided,
Region VI PDC
Liaison Roles

4. Ensure that AV equipment is working properly INCLUDING THE MICROPHONES (report problems to me or any PDC staff member at the registration desk).

At the Session...
1. Assist the speaker with getting A/V loaded and ready,
2. Ensure that all attendees get a session survey to fill out,
3. Collect session surveys, and place in folder.
4. All other duties as required...

After the Session...
1. Enter the information from the session evaluations into the database

One significant contribution you need to make prior to the PDC is providing contact information for potential exhibitors and sponsors. Therefore, please respond to this request by forwarding the name, address, phone number, and email address for 2 potential sponsors and 2 potential exhibitors. These companies can be clients, consultants, suppliers, etc. that you may currently use to conduct your work. Please forward this information to my attention by July 9. The benefit to this approach, is that companies are not being cold called by our Exhibitor Chairperson. Since they are receiving the information from a trusted business partner they may be more likely to consider participation. A Prospectus will soon be prepared that identifies the associated costs and steps for registration. Companies may register even before being contacted!

Please contact Bob Calhoun at rpcalhoun@bwxt.com if you are interested by Friday, June 29.
Join your fellow ASSE members for a night out at the ballpark!

Salem Red Sox vs Potomac Nationals

Haley Toyota Field
1004 Texas Street, Salem, Virginia
